Due: Sept. 23, 2005

Answer each question without the help of 'dsolve' - handwritten solution required (i.e. no Maple print out). Give an explicit solution whenever possible.

Set 1.3: 4, 8, 10, 16, 20, 22.
Set 1.6: 12, 14, 16, 22

Please use only one side of each page. Also: number your answers using the book's system (ie. 4, 8, 10,...), NOT 1, 2, 3,...
Submit by either sliding it under my door (J410), or leaving it in my mailbox in the Math main office (J415).
